

### Ashland Elementary Students Work To Promote *Under The Ashland Big Top Circus*

Ashland Elementary students in grades 6-8 have been honing their performance and business skills in preparation for their upcoming Project Week activity, which this year involves putting on a circus. While some students are learning skills such as unicycle riding, acrobatics, arial arts and clowning, others are working on fundraising, promotion and adversiting of the upcoming event. Members of the marketing team, recently reached out to local businesses and offered them the opporutnity to advertise on their soon to be released circus posters. Funds raised will be used to offset costs of professional performers who are working with students, graphic design, costumes, props and set creations. Anyone interested in supporting these ambitious students should contact the school at 968-7622.

Picture above students Kiera Spencer, Aaron Desmond and Natalie Boyer work on a bulk mailing to local businesses to offer advertising option and to encourage donations for Under The Ashland Big Top Circus.
