

## Ashland Elementary School Student Selected for Banking Award

Ashland Elementary School student Ethen James was acknowledged for his participation in the Save for America Banking Program. Each week, AES students have the opportunity to make weekly deposits into their Meredith Village Savings Bank accounts. Through the Save for America Program, students are awarded for their consistent participation. All students who saved at least once before September 30, 2022 were entered into a drawing to win a Back to School Supplies gift pack. Ethen was one of the eight winners.

Principal Kelly Avery was pleased to present Ethen with his gift. "I appreciate the continued partnership between Ashland Elementary School and Meredith Village Savings Bank. Each year we see more students participating in the Save for America Program, which teaches them the importance of saving for their future."
